

NICOLAS DUCOT

1352 VERMONT STREET SAN FRANCISCO, CA 85281

SITE www.nickducot.com ::: TEL 602 743-5064 ::: EMAIL alodus@gmail.com

OBJECTIVE

To obtain a creative and challenging position that enables me to gain valuable commercial experience and improve the web development and design skills that I gained as part of my freelance design projects and academic courses.

EXPERIENCE

CORNISH PASTY CO. ::: WWW.CORNISHPASTYCO.COM

As my first commercial project I made it my focus to work closely with the owner of this Tempe, AZ based restaurant in order to develop and implement his ideas. The overall branding and web site should represent his company and his ideals on food, customer service, and overall attitude.

MICHAEL KAILAS PHOTOGRAPHY ::: WWW.KAILASPHOTOGRAPHY.COM

I developed this web site by using New York City based photographer Michael Kailas' ideas and vision to facilitate the overall production of his personal on line portfolio. I implemented a customizable HTML hand coded photo display in order to accomplish his overall goals on how the web site should present his work.

CIBO URBAN PIZZERIA ::: WWW.CIBOPHOENIX.COM

This site was developed with the feel of Cibo's historic architecture and ambience in mind. I incorporated various elements including texture, digital imagery, and animation to further establish a more concise brand identity. As a result this site allows the viewer all the necessary information with enough imagery and animation to instill the sensibilities of this significant pizzeria.

NOVA MEJIA MODELING PROFILE ::: WWW.NOVAMEJIA.COM

This site needed to be a direct representation of Nova and her already blossoming career as a model, actress, and artist. It proved to be a clean and easy website to navigate with enough content to network with her peers and grow as an artist.

SLO FOODS ORGANIC CAFE ::: WWW.SLOFOODSAZ.COM

This new and all organic cafe needed to reflect a simple and clean feel to the potential customer. By allowing the restaurant to use this online tool to its advantage the owners can now better promote the concept of eating healthy and the core ideals of the restaurant itself.
